

Polygood® Cleaning and Care

Polygood® is a durable, versatile surface used in retail, countertops, wall cladding, and furniture, both commercial and residential. Cleaning needs vary by application, pattern, and finish.

Routine Cleaning

- Wipe with a soft microfiber cloth and a mild, pH-neutral multi-surface or glass cleaner (e.g., LiquidSense™, Insta-Use™*, KAY®*, ECOLAB®*, Diversey™, Method®, Seventh Generation®Plexus®) following the product instructions.

Grease Removal

- Use mild degreasers safe for plastics (e.g., LiquidSense™ Heavy Duty*, ECOLAB®*, Diversey™) or diluted dish soap.

*Ecolab products have been tested and approved by Ecolab for the McDonald's tabletops project.

Avoid

- Harsh solvents: acetone, thinners, alcohol (>70%), bleach, ammonia
- Acidic cleaners: vinegar, citric acid, limescale removers
- Abrasive tools: scouring pads, steel wool, scrapers
- High-pressure or steam cleaning
